

Date:

1900

Identifier:

T0859

Description:

Pomo women excelled in the creation of special occasion basketry as this large basketry tray attest to. The diagonally arrangement of the pattern is executed in redbud and small disk shaped clam shell beads further embellish the decoration on the tray. Pomo basket weavers often left the warp ends project over the weft twining as is evident on edge of this tray.

Physical dimensions:

diameter 19 in ; height 7 in

Format:

Tray

Coverage:

Northern California

American Indian Art
